- Spirit week is this week!
- Highly encourage all of senate to dress up for spirit week, tell everyone and tell all your friends
- Take pictures (if you can) to post on the SAC instagram

Gabe: Budget

- Sent the link to the group, but can't be reviewed just yet -- waiting for admin approval

Cohort Rep:

- Have 24/120
- Please encourage your homeform
- Shap: maybe run an announcement because many students don't know about it
- Yosaf: actually for teachers to do, they've been sent many emails - not the students job but students can encourage teachers to hold their elections

Any other business?

Shap: for admin- were speaking about diversity related programs - wondering if any progress has been taken about this issue

Joyce: last time checked - we were trying to host a talk with a black transgender activist → something we're working on but still need approval/working things out with admin

Shap: is there anything on mental health/racism awareness?

Wellns: is working on programs about mental health

Shap: remembered talks about large scale work relating to a body of diversity, promised large sums of funding

Gabe: wellness did not submit any budget request: did not need money for what they are planning

Joyce: never promised anything, talked with presidents of each club but has not been needed by them

Joyce: will plan a meeting possibly with all heads/associations and will let Shap (senator of BlackNSS) know and be involved
