### COMMITTEES

- Ryan: Equity Director legislation
  - A position (started out as a senator position, but grown to an executive position) whose job is to oversee student equity (acknowledging that everyone is at a different place in the school and need different support) and diversity (everyone will feel welcome and everyone can do something if that want)
    - Equity director will work with the equity council (students from clubs like blacknss, femnss, social justice, other students interested, etc)
  - Being finalized and will come with the CRC
  - If you have any questions/concerns/etc about the position, let Ryan know and talk to him so things can be sorted out
  - We want this position to be in the executive because it will have increased power, better communication with Admin, greater influence on the student body
- Aleks: Elections Committee applications closed
- Aleks: CRC
  - In a week or two, we'll be able to show the slideshow of all the changes that are hoped to be made and vote on the new constitution
  - the slideshow will be given out before the meeting
  - Hoping to get through all concerns before the meeting, so once the slideshow is released, look through it and raise any concerns to the committee before the meeting
